

August 25, 1972

Dear Micromineralogist's,

We would like to thank those who have returned the cards indicating when they will be able to work at our booth at the Northwest Federation show in Portland, Oregon on September 2, 3 and 4. Those who have signified their willingness to help out, will find a schedule showing the hours they will be expected to work included in this mailing. Some hours could still use additional help, if others find they will be able to come, or will have some time free from their other activities, do let Dr. George Williams know so that he can schedule you.

The next field trip for our group will be September 23rd to get some Osumilite. The leader will be Harold Dunn; who tells us that the party will leave Frog Camp at about nine on Saturday morning. Frog Camp is located on the McKenzie Pass Highway in Oregon, some 70 miles east of I-5 at Eugene. Take a lunch and rock hammer. One or two single-jacks and chisel is enough for all. It is a seven mile hike with elevations from just under 5,000' to right on 6,000'. Water is available at the collecting site. If you plan to camp overnight, Harold suggests Scott Lake, a mile or so further east than Frog Camp. Because the location is in the Wilderness Area it is necessary for Harold to obtain an entry permit specifying exactly how many will be going. He asks that you either contact him during the Portland Show or send him a card to reach him no later than September 20th if you wish to be included. His address is: Harold Dunn, Mohawk Star Route, Springfield, Oregon 97477.

As many of you know, at our Swap meeting and Salmon Feed at Raymond, Washington in July, it was determined that a better date for our meeting in Forest Grove, Oregon this fall will be October 28 and 29. A room for the meeting has been confirmed at Pacific University. More details in a later bulletin, but do hold that weekend free for our meeting.

We want to welcome another new member family:

Mr. and Mrs. Ed (and Veda) Munk
2907 15th Street
Vernon, B. C. Canada

SEE YOU AT THE NWFMS SHOW ON SEPT. 2, 3 & 4 AT PORTLAND

Lee Kendall, Editor
